Treating Insomnia.
The latest cure for insomnia, notes the Toledo Bee, is counting your inhalations and exhalations, but the Blade is skeptical, and comments: "We do not like mutton, but expect to continue counting sheep." In case of insomnia "first aid" should be to turn on the light, take up a book and read. While this may not cure insomnia, it defies it and is gratifying to a belligerent mind.

Your home newspaper heralded to the world your birth. It told of your entry into school. Mentioned your birthday party when you were sweet sixteen. Applauded your graduation from the high school, started you into college, and when you returned mentioned the first job you secured. Told of your marriage to the sweetest girl in town and also mentioned the advent (or event) of your first born. Told of the visits to pa and ma, sympathized with you in your sorrow, laughed with you in your joy, and when you die it will do its best to get you through the pearly gates, at only \$1 a year.—Ex.
